

Hand Made Upcycled Planter Order Form

The *Fly Wild* project helps tackle the pollinator crisis by encouraging Brighton and Hove residents to grow plants that support pollinators year-round. Our handmade, upcycled planters are crafted for those with limited space or gardening experience, making it easy for anyone to get involved. We invite you to grow a pollinator-friendly plant that blooms in the month of your birthday—or that of a loved one—creating a network of mini pollinator gardens across the city. Together, we’re building a diverse, year-round haven for pollinators, one small garden at a time.

OPTION 1: Flat pack pollinator planter. You build it. Circle your choice.

- 1 **handmade** upcycled rustic pine planter, approximately 1ft by 1ft with 4 upcycled plastic feet to raise your planter off the ground and protect it from wet and provide shelter for wildlife.
- 1 **upcycled** carrier bag to carry your flat pack in then becoming your planter liner. **No packaging waste.**
- A small bag of **upcycled** corks in an **upcycled** bag. Save water by using your corks to cover exposed soil to prevent from drying out.
- 1 x Factsheet including instructions explaining how to assemble your planter. Just 8 screws, included and a sustainability statement.
- 1 x Factsheet detailing the Fly Wild project and your pollen and nectar calendar written by **Kate Bradbury.**

<p>Nude Flat Pack without weather protection</p>	<p>We can hand paint your flat pack using low VOC [volatile organic compounds] paint to protect your planter. You can choose from 4 colours.</p>
